

HELLO

**WE ARE**

**IOHIA**  
WORLDSPACE

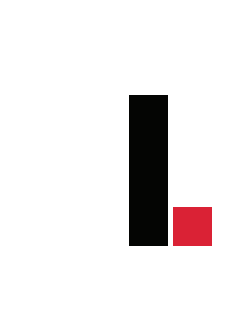

**WELCOME TO**

---

**THE NEW FACE  
OF REALTY.**

We Are

We are a consumer centric real estate brand that authentically uplifts living by taking responsibility of improving consumers' experience at every step, enabling community living and constantly evolving with consumers changing needs.

We Are

We are aware and balanced in our approach, we are mindful of technology, the environment, the quality of built and open spaces that we create. We take a fresh approach on everything we design. Our approach seamlessly integrates the wisdom of tradition and the cleverness of the new.

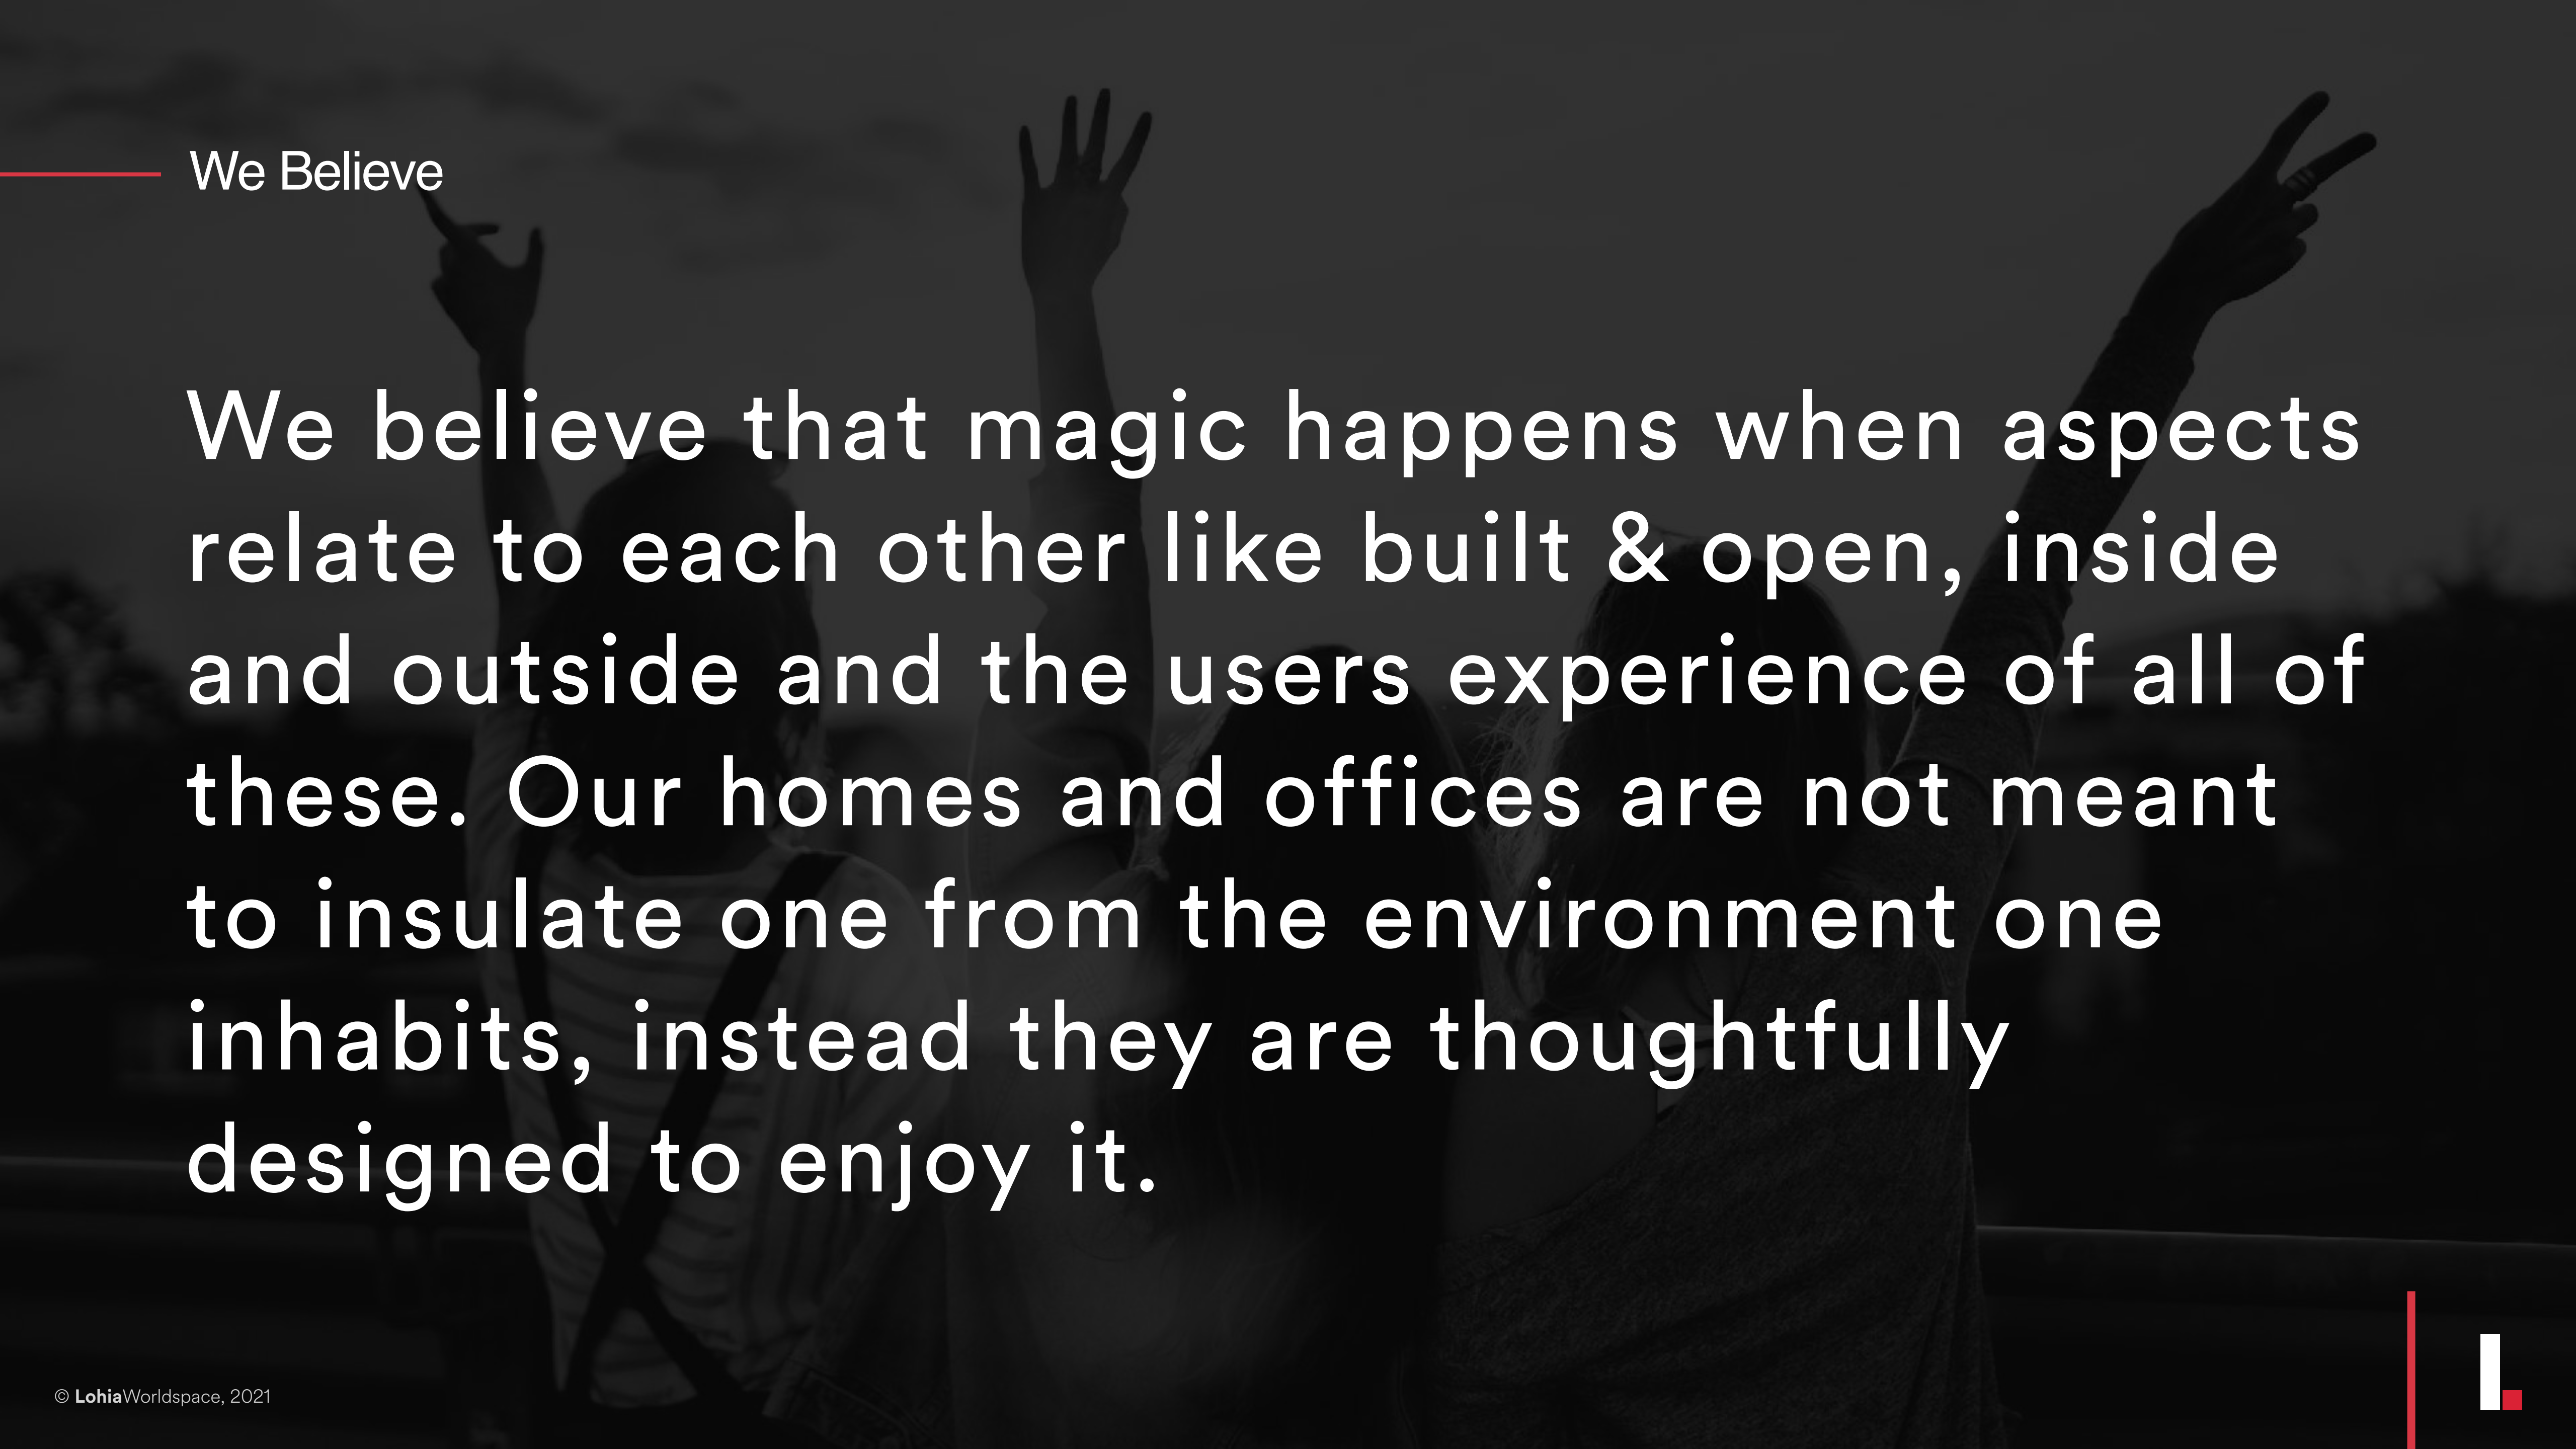

Who Do We Serve

A discerning crowd that understands and values a conscientious brand that offers authentic luxury with a sustainable lifestyle

A dark, grayscale background image showing the silhouettes of several people with their arms raised in the air, suggesting a crowd at a concert or a public gathering. The lighting is dim, with the subjects appearing as dark shapes against a slightly lighter background.

We Believe

We believe that magic happens when aspects relate to each other like built & open, inside and outside and the users experience of all of these. Our homes and offices are not meant to insulate one from the environment one inhabits, instead they are thoughtfully designed to enjoy it.

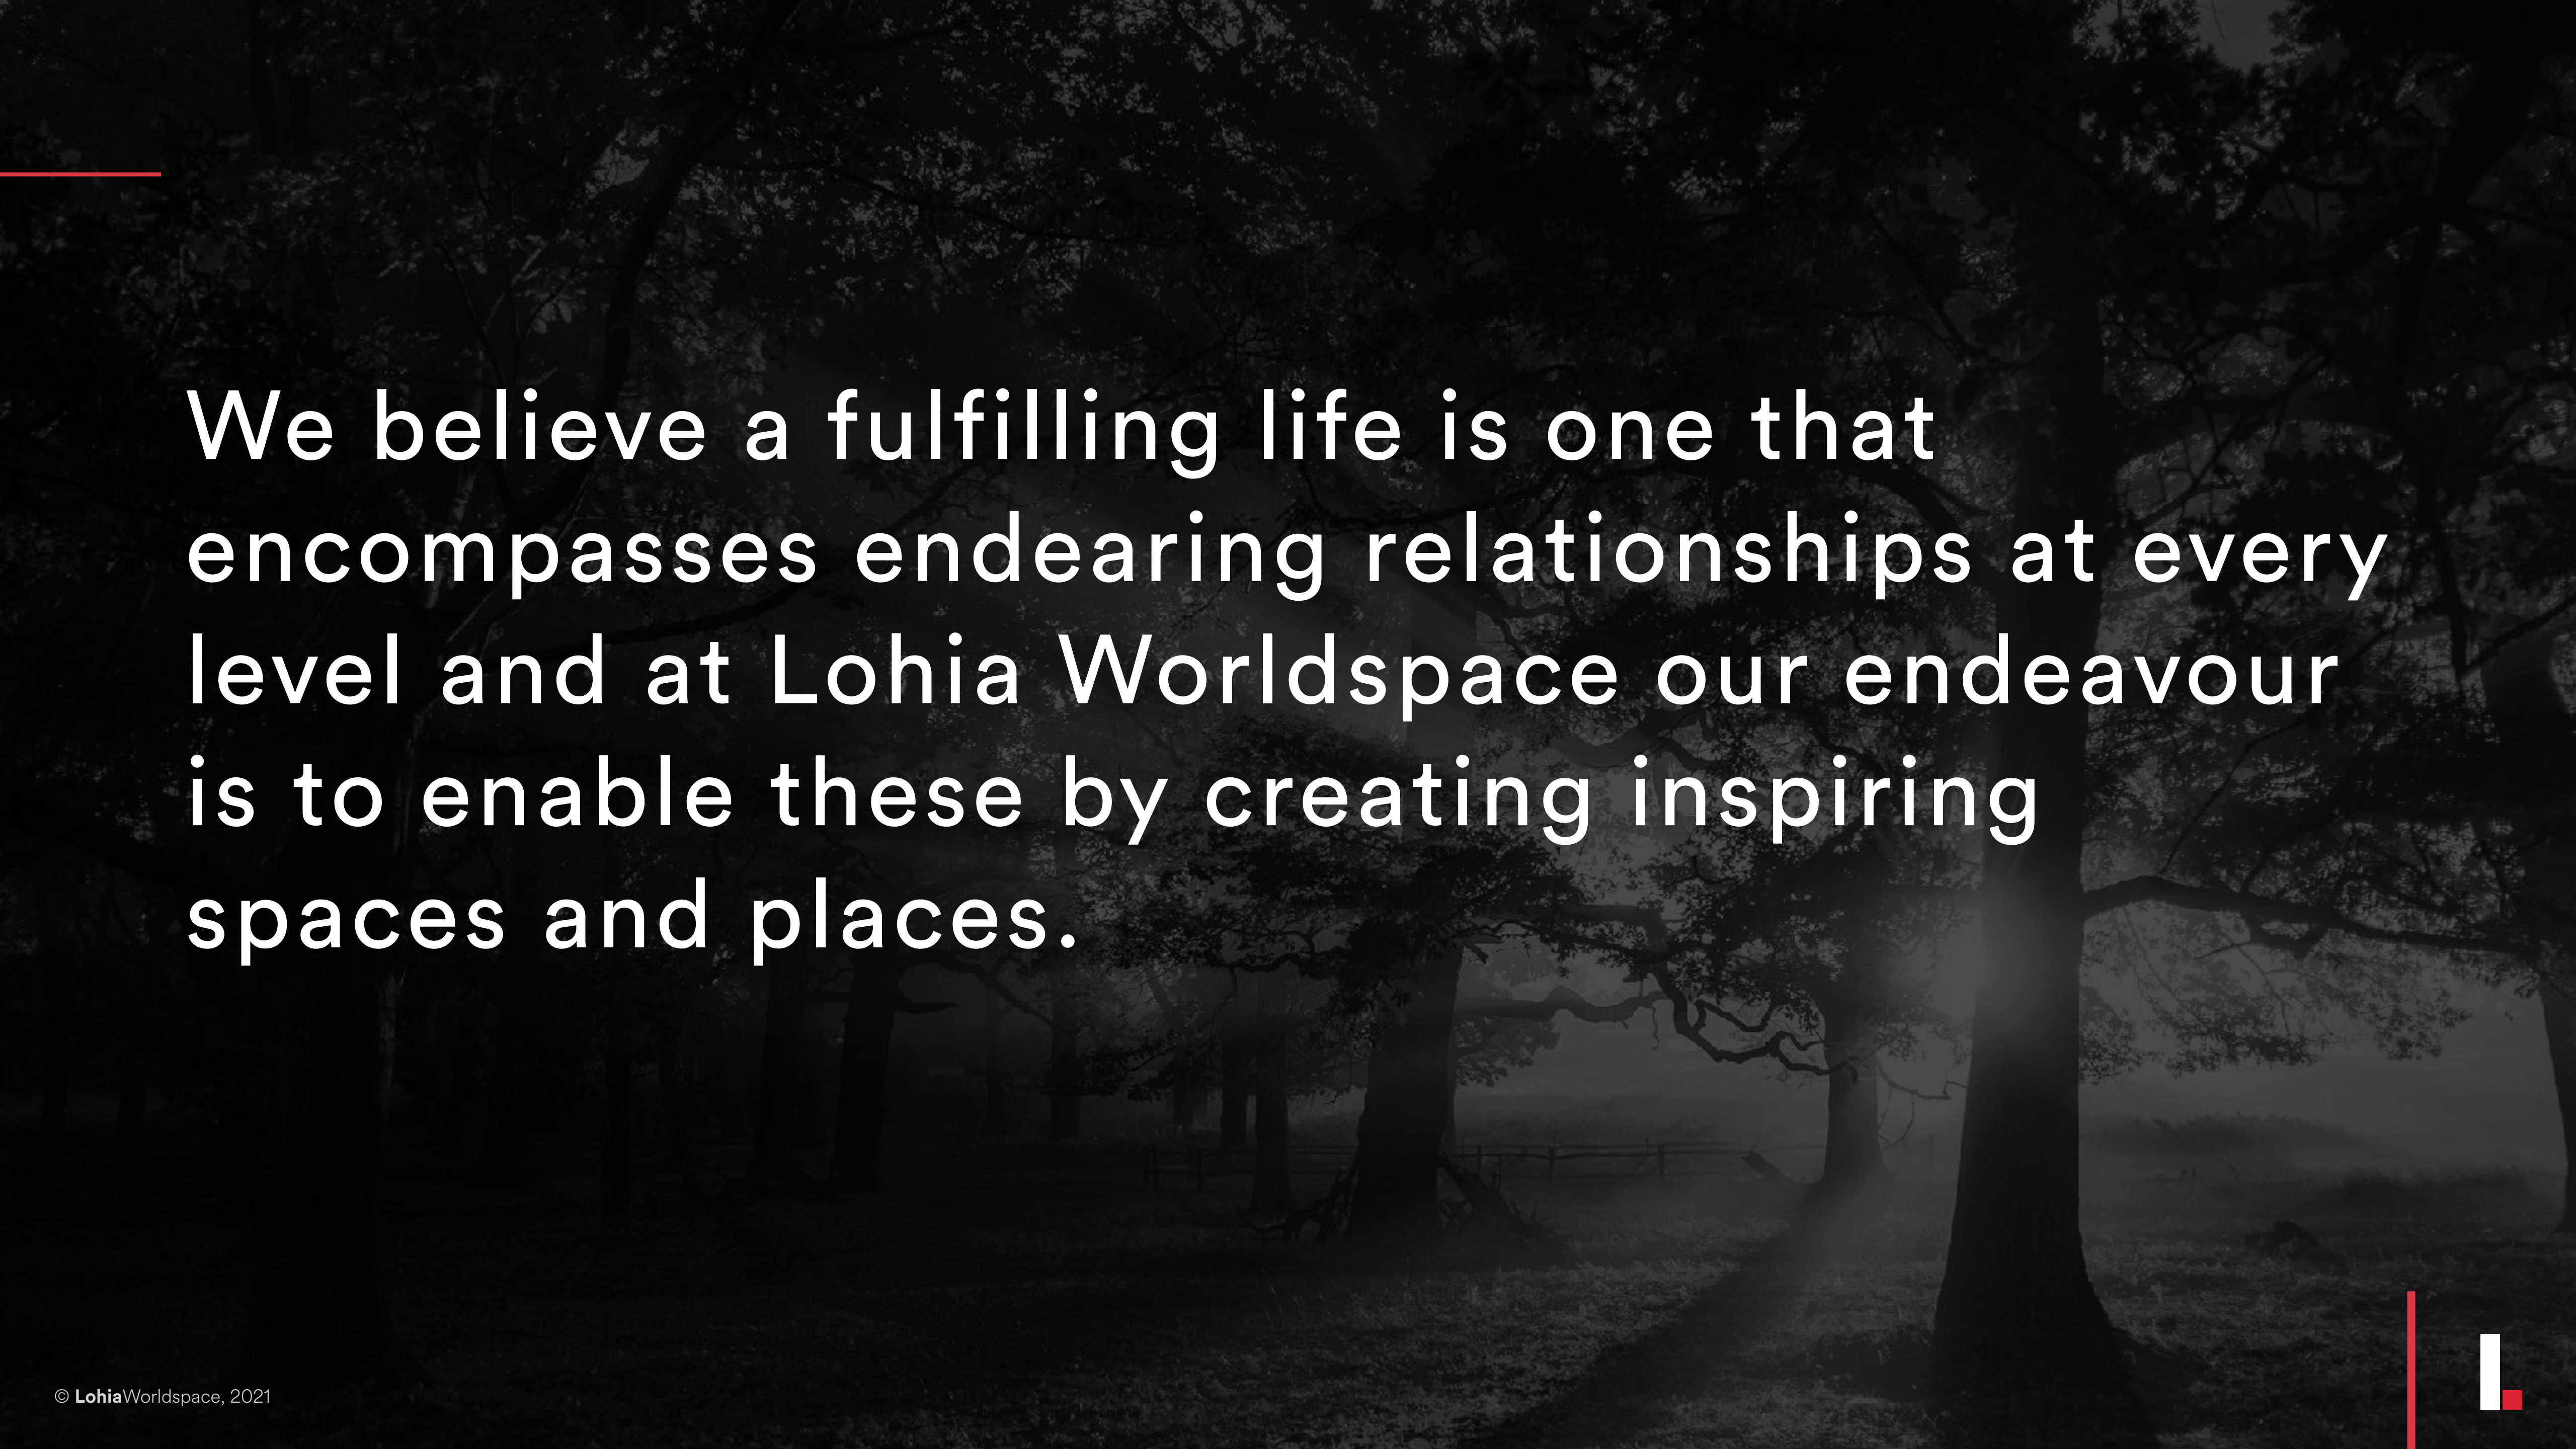

---

At Lohia Worldspace,  
our endeavour is to create sensible spaces for  
occupants, which provide an environment,  
architecture, and like-minded human interaction to  
evoke belongingness.

We believe a fulfilling life is one that encompasses endearing relationships at every level and at Lohia Worldspace our endeavour is to enable these by creating inspiring spaces and places.

**WE LIVE IN OUR  
HOMES BUT  
WE DWELL IN OUR  
COMMUNITIES.**

## Our Legacy

Lohia Worldspace is a group company belonging to the renowned Lohia Global, Moradabad (Uttar Pradesh)

Starting out as a small family business in 1960, the Lohia group today is a multi-business conglomerate with the family's fourth generation at the helm.

1960 Jagan Lal Gupta started the first stage of our story with a small business focused on making lunch boxes and torches in Moradabad.

1979 Narain Kr Gupta (2nd generation) diversified into wood, glass, metal handicrafts with the establishment of Design Co - an export powerhouse.

## Our Legacy

### Group of Companies

Today the group has diversified into sectors such as automobiles, energy, trading, building materials, real estate under the leadership of the 3rd and 4th generation members of the family.

Lohia Global, a business conglomerate has an experience of 35 years, presence in 20 countries and businesses across 10 sectors. The businesses encompassing automobile, real estate, retail, manufacturing, material

and automobiles have been consistently working towards the vision of bettering the lives of communities across the globe. We have successfully optimized the strength of each of our business verticals to achieve investment potential, increased geographical coverage and deliver a range of products which apply advanced technology to improve product quality and experience.

## Our Legacy | Export

Designco is India's one of the fastest growing handicrafts export company, offering customers every choice in terms of materials like; wood, glass, metal and stone with multiple finishes. At Designco, We provide sophisticated, one-stop-shop solutions to meet our customers' specific needs and helps to create a platter of offerings where they have more choice, more options to choose from. Today we have evolved to a point, where-in we are catering from exclusive designers to mass retailers, equally effectively. Our global team of designers and trend-experts work daily to ensure that our products shall be tuned to the latest trends and with reliable global compliance. We have well developed infrastructure & support systems, adding backward integration processes, commissioning a number of machines and improving the quality of man force through skill-development programs. We are one of the

most important innovators in the handicrafts exports market. We are committed to achieving the highest standards when meeting the needs of our customers through competitive pricing, quality, and reliable delivery. By leveraging our global network, market knowledge, and advanced technology, we have the capacity and flexibility to rapidly respond to evolving trends in consumer and production markets.

Our business is built upon our people, our time-honoured values, our approach to sustainability through the entire supply chain, and our community engagement. Our global network, our financial strength, and our leadership are the platform for our continued success and future growth.

## Our Legacy | Automobile

Our plant at Kashipur, Uttarakhand uses futuristically designed state-of-the-art equipments, managed by one of the most modern Cloud-ERP technology, with a capacity to roll out 1,00,000 vehicles annually. It has a high level of vertical integration and a large share of local suppliers. The facility being operated in a green-industrial-belt, supports our philosophy that embodies our goal of creating environment friendly products and solutions.

Commercial vehicles and electric vehicles: Lohia Auto Industries have stated their presence in the commercial vehicle market and has emerged as a very key player under the segment. Lohia offers – Passenger commercial vehicles & commercial transport vehicles with two fuel variants, the conventional fuel category and electric category.

The joy ride is for everyone, for every age and for every segment. With key innovations in electric vehicle category Lohia Automobiles have created benchmark products that provide consumers a viable, convenient and cost effective way to travel.

<http://lohiaglobal.com/automobile>

## Our Legacy | Energy

Lohia Energy endeavours to protect the environment, strengthen communities and propel responsible growth. Currently we are acquiring land packets for wind and solar power installations to further bring world-class expertise to every aspect of wind and solar energy production. Lohia Energy is experimenting with wide range of robust and reliable global products that allows commercial and independent power production. We are investing in backward integration and R&D that will allow the company to create a competitive advantage by becoming an integrated renewable energy solution provider.

### **Integrating the environment:**

We are investing in backward integration and R&D that will allow the company to create a competitive advantage by becoming an integrated renewable energy solution provider. Looking at the opportunities of global

partnerships to create a healthy-ecosystem for the renewable energy sector.

Putting our efforts to create a Best-in-class Operation & Maintenance Services (OMS) which will generate revenues as well as garner customer confidence.

### **From Concept to commission:**

Lohia Energy's full scope services will range from Feasibility studies, Complex front-end engineering design, Manufacturing of wind turbines and Solar Cells, Construction, Installation and Commissioning of wind and solar farms, Long-term operations and Maintenance of farms, as well as the breadth and depth of customer requirements across the renewable energy value chain.

<http://lohiaglobal.com/energy>

## Farmer Empowerment for the Future

Lohia Gramin strives to solve technology, environmental and market barriers that prevent millions of farmers from earning income to improve their quality of life and escape the trap of poverty.

Our goal is to apply entrepreneurial thinking to provide ongoing benefits and promote new ways of promoting comprehensive economic growth in the farmer's community.

We see farmers as customers confronting difficult choices, not as victims. This entails working to develop ground-breaking technologies and services that provide technical, environmental, and economic value to low-income farmers at a reasonable cost.

<http://lohiaglobal.com/sustainability>

## Nurturing the foundation of education

Lohia Education is committed to excellence in teaching, learning and research. The organization is committed to the creation, dissemination, and preservation of knowledge, providing students with the excitement of academic research and discovery, along with the support and intellectual stimulation of a diverse learning community.

We seek to educate our children on their ability and passion to work wisely, creatively and effectively for the development of mankind. Lohia Education has developed a new model for primary education and created Lynn Brooke, an institution dedicated to excellence, accessibility and influence.

<http://lohiaglobal.com/education>

For decades now, Maple has been developing and offering new areas of application for ceramics, providing architects with products that deliver outstanding technical characteristics, through the Maple Ceramica brand, as well as an ever growing array of solutions for architecture through the Maple Engineering Division.

Maple Ceramica entered the business of manufacturing tiles with a state of the art

plant - longest kiln of 210 meters, near Ringus, in Sikar district of Rajasthan. The plant is spread over 25000 sq m, with an installed capacity of 66,000MT per annum which translates into 10000 boxes per day. Beyond the numbers, Maple Ceramica has its beliefs firmly rooted in the values of innovation, trust, and a customer centric approach.

<http://lohiaglobal.com/sustainability>

Lohia Worldspace is dedicated to creating expansive spaces, with more than adequate space for interaction with gifts of nature, which nurture a sense of belonging and pride. We are dedicated to serving an experience which brings to the table modern amenities and harmony with nature. We endeavour to create a clear distinction from concrete spaces and pave the way for luxury and leisure.

We believe a thoughtful architecture which allows enough space for greenery to flourish can go a long way in evading monotony, uplifting the mood and creating a sense of belongingness

<https://lohiaworldspace.com>

An aerial, high-angle photograph of a construction site. The ground is covered with a dense grid of steel rebar, forming a mesh for a concrete slab. Several construction workers are visible, some standing on the rebar grid and others near the edges. The image is in black and white, with a few red accents: a small red line in the top left, a small red square at the end of the main text, and a vertical red line with a small red square at the bottom right.

**THE LEGACY  
WE ADVANCE.**

## Director Message

Pyush Lohia  
Director - Lohia Worldspace

We believe that people appreciate sincerity. They are not only interested in transactions. They are drawn to the purpose you demonstrate in the larger things you do for society.

Everyone sees owning a home as a lifetime dream. Builders bear a great deal of responsibility. Reflecting their lifestyle aspirations, taste, and identity in our products through design and value-added services such as customisation is what people are expecting from us.

And, as enablers, we always strive to go above and beyond what people expect from us. We want to build and design spaces that

are in harmony with the environment as well as the local flora and fauna. Open spaces for children to play, adults to celebrate, and the elderly to enjoy a breath of fresh air and peace.

We believe that every home should be comfortable, friendly to nature, low on energy consumption, and have a sense of community, and that sustainability is an important aspect of our products.

## Our Vision

To improve the quality of living and work for  
our customer and communities based on their  
needs in time

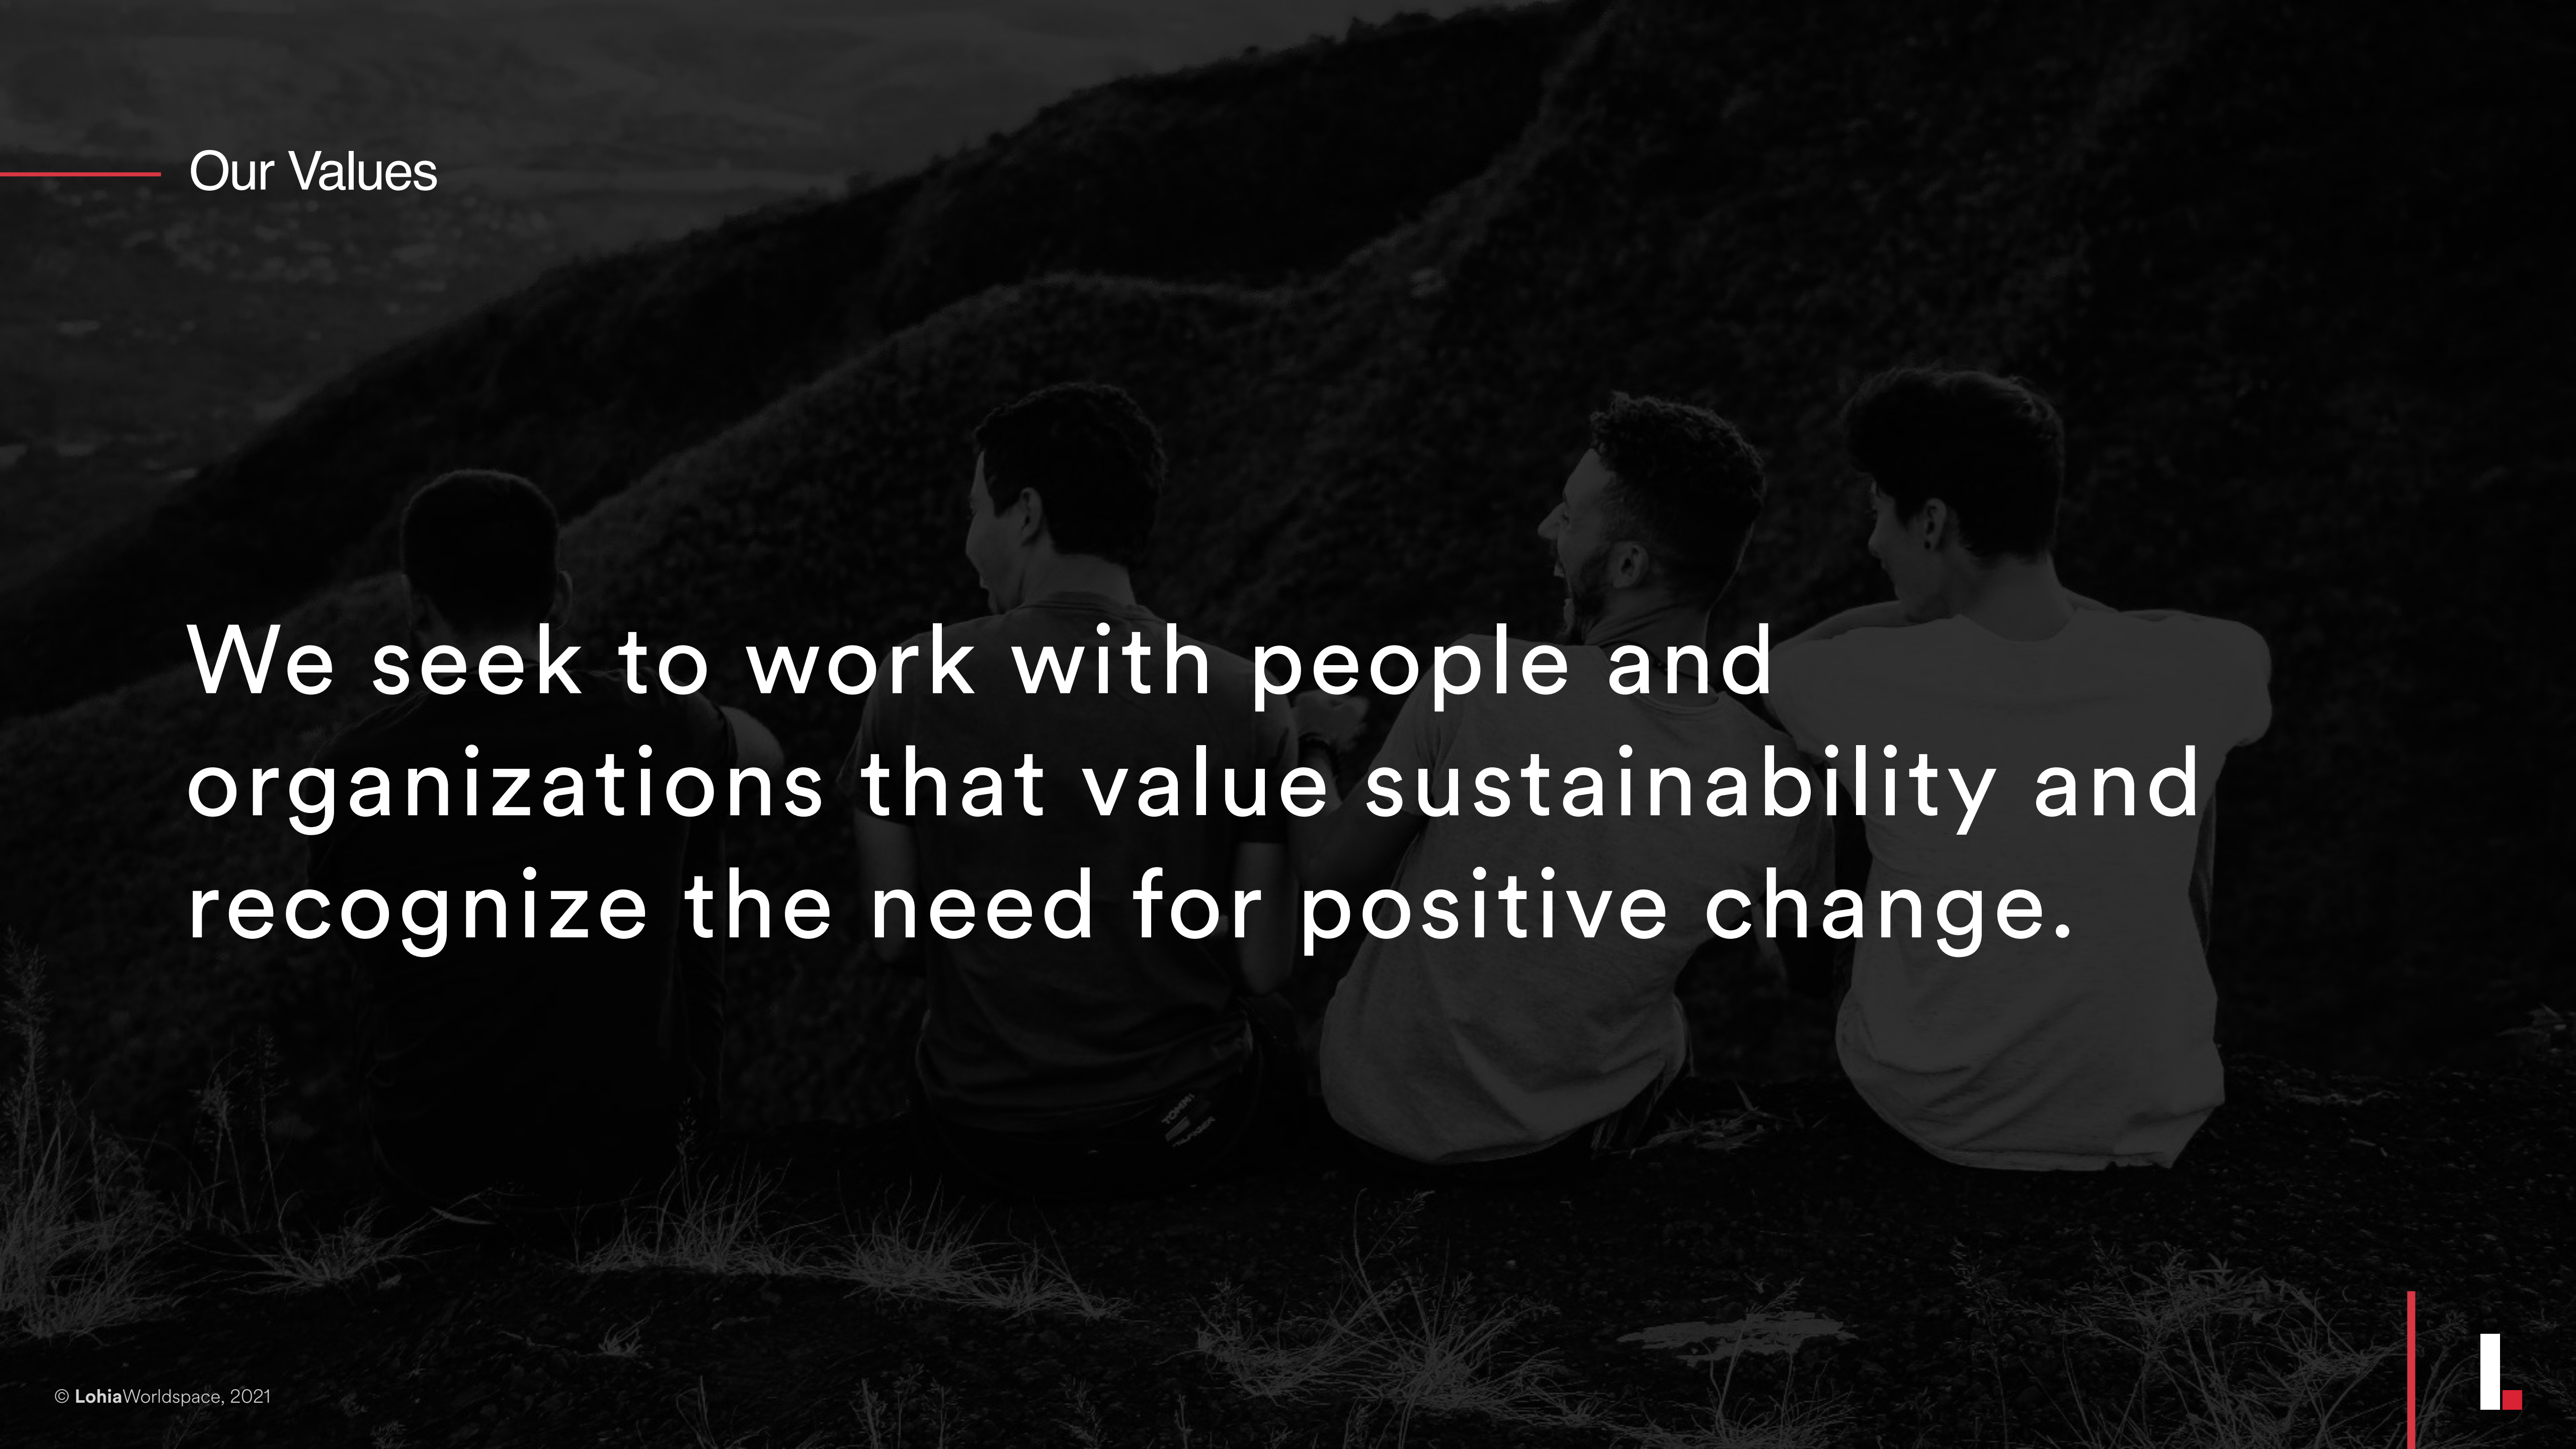

## Our Mission

To uplift, connect and create efficiency in the lives of humans and their work environments, and have a pronounced community impact

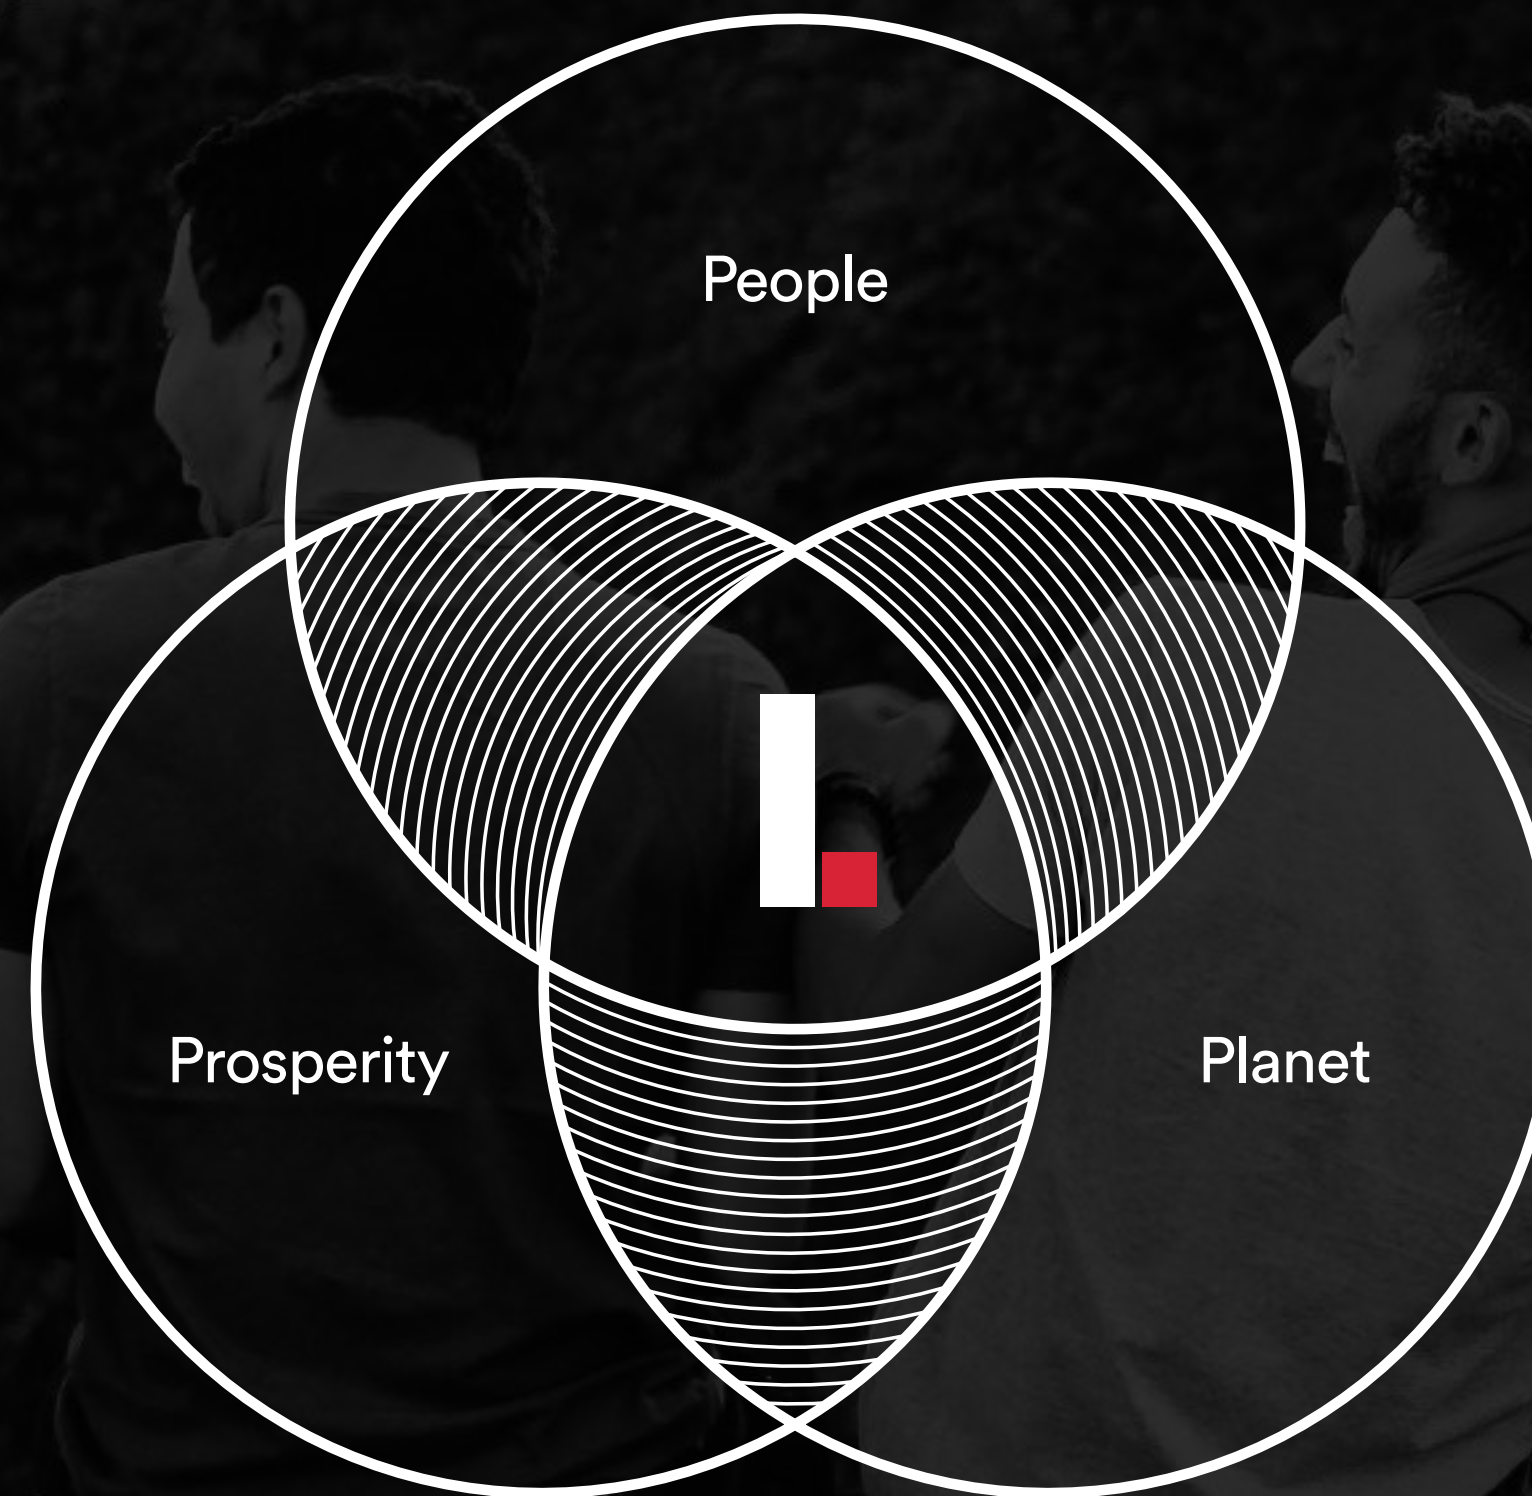

A dark, atmospheric photograph of four people sitting on a grassy hillside, looking out over a vast, hilly landscape. The scene is dimly lit, suggesting dusk or dawn. The people are seen from behind, their silhouettes blending into the dark environment. The overall mood is contemplative and serene.

## Our Values

We seek to work with people and organizations that value sustainability and recognize the need for positive change.

# Our Values

## Why us

We take a design-led approach that distinguishes us as more than just a real estate firm. Our experience, combined with a team of highly talented and skilled professionals, enables us to provide end-to-end expertise, from location selection to design and execution.

# Why us

We own expansive land parcels in North India

We have the benefit of tapping into regular and sustainable international design standard

We offer a generous open space ratio

Buyers get a one point sales experience that is backed by focused after sales experience

We continue our association with buyers with regards to the maintenance and well-being of the property post purchase

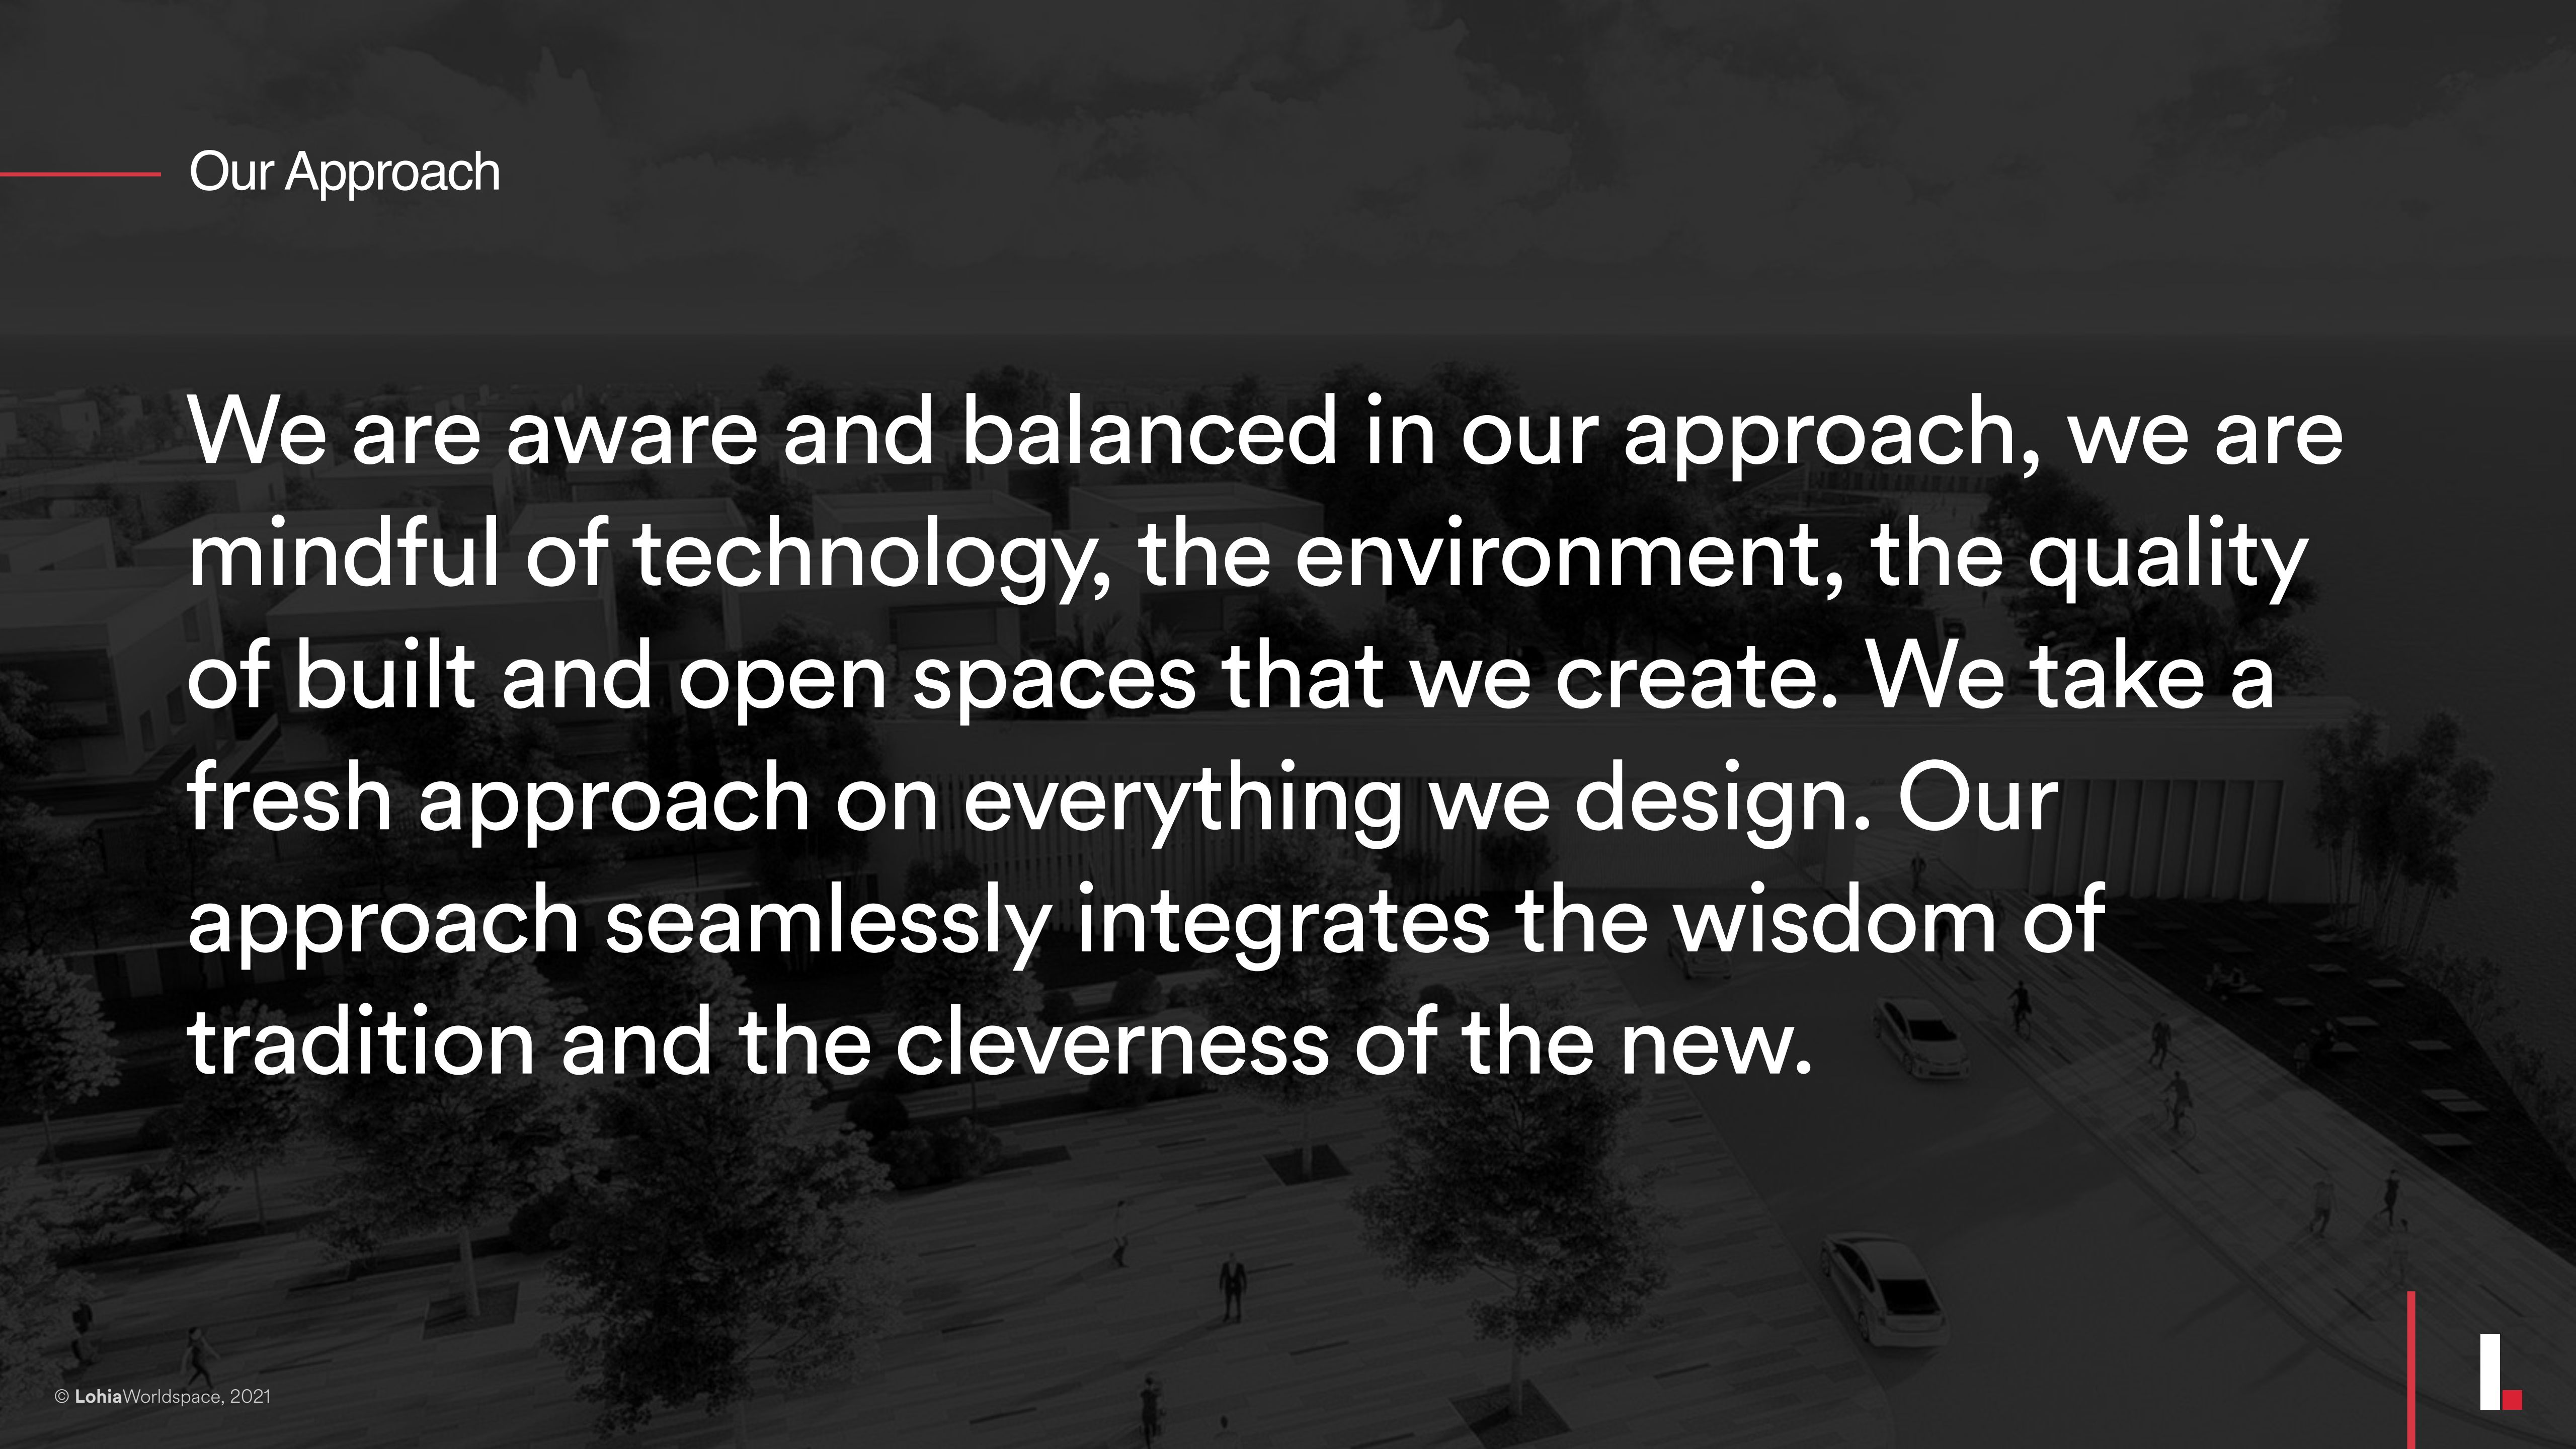

Why us

We are planning a pallet of offerings ranging from luxury villas to concept workspaces, with offerings at every level, from world class corporate offices to large-scale spaces for growing businesses, as we pioneer new market trends.

An aerial, high-angle view of a modern urban development. The scene shows a wide, paved pedestrian walkway with several trees planted at intervals. To the right, there's a road with a few cars. In the background, there are modern buildings and more greenery. The overall atmosphere is clean, organized, and designed for pedestrian-friendly movement.

## Our Approach

We are aware and balanced in our approach, we are mindful of technology, the environment, the quality of built and open spaces that we create. We take a fresh approach on everything we design. Our approach seamlessly integrates the wisdom of tradition and the cleverness of the new.

We exist to influence and contribute to the creation of the safe, sustainable, and inspiring future that we all deserve. We work together to deliver projects and advice for a better built environment that are more environmentally sustainable, socially responsible, and commercially intuitive.

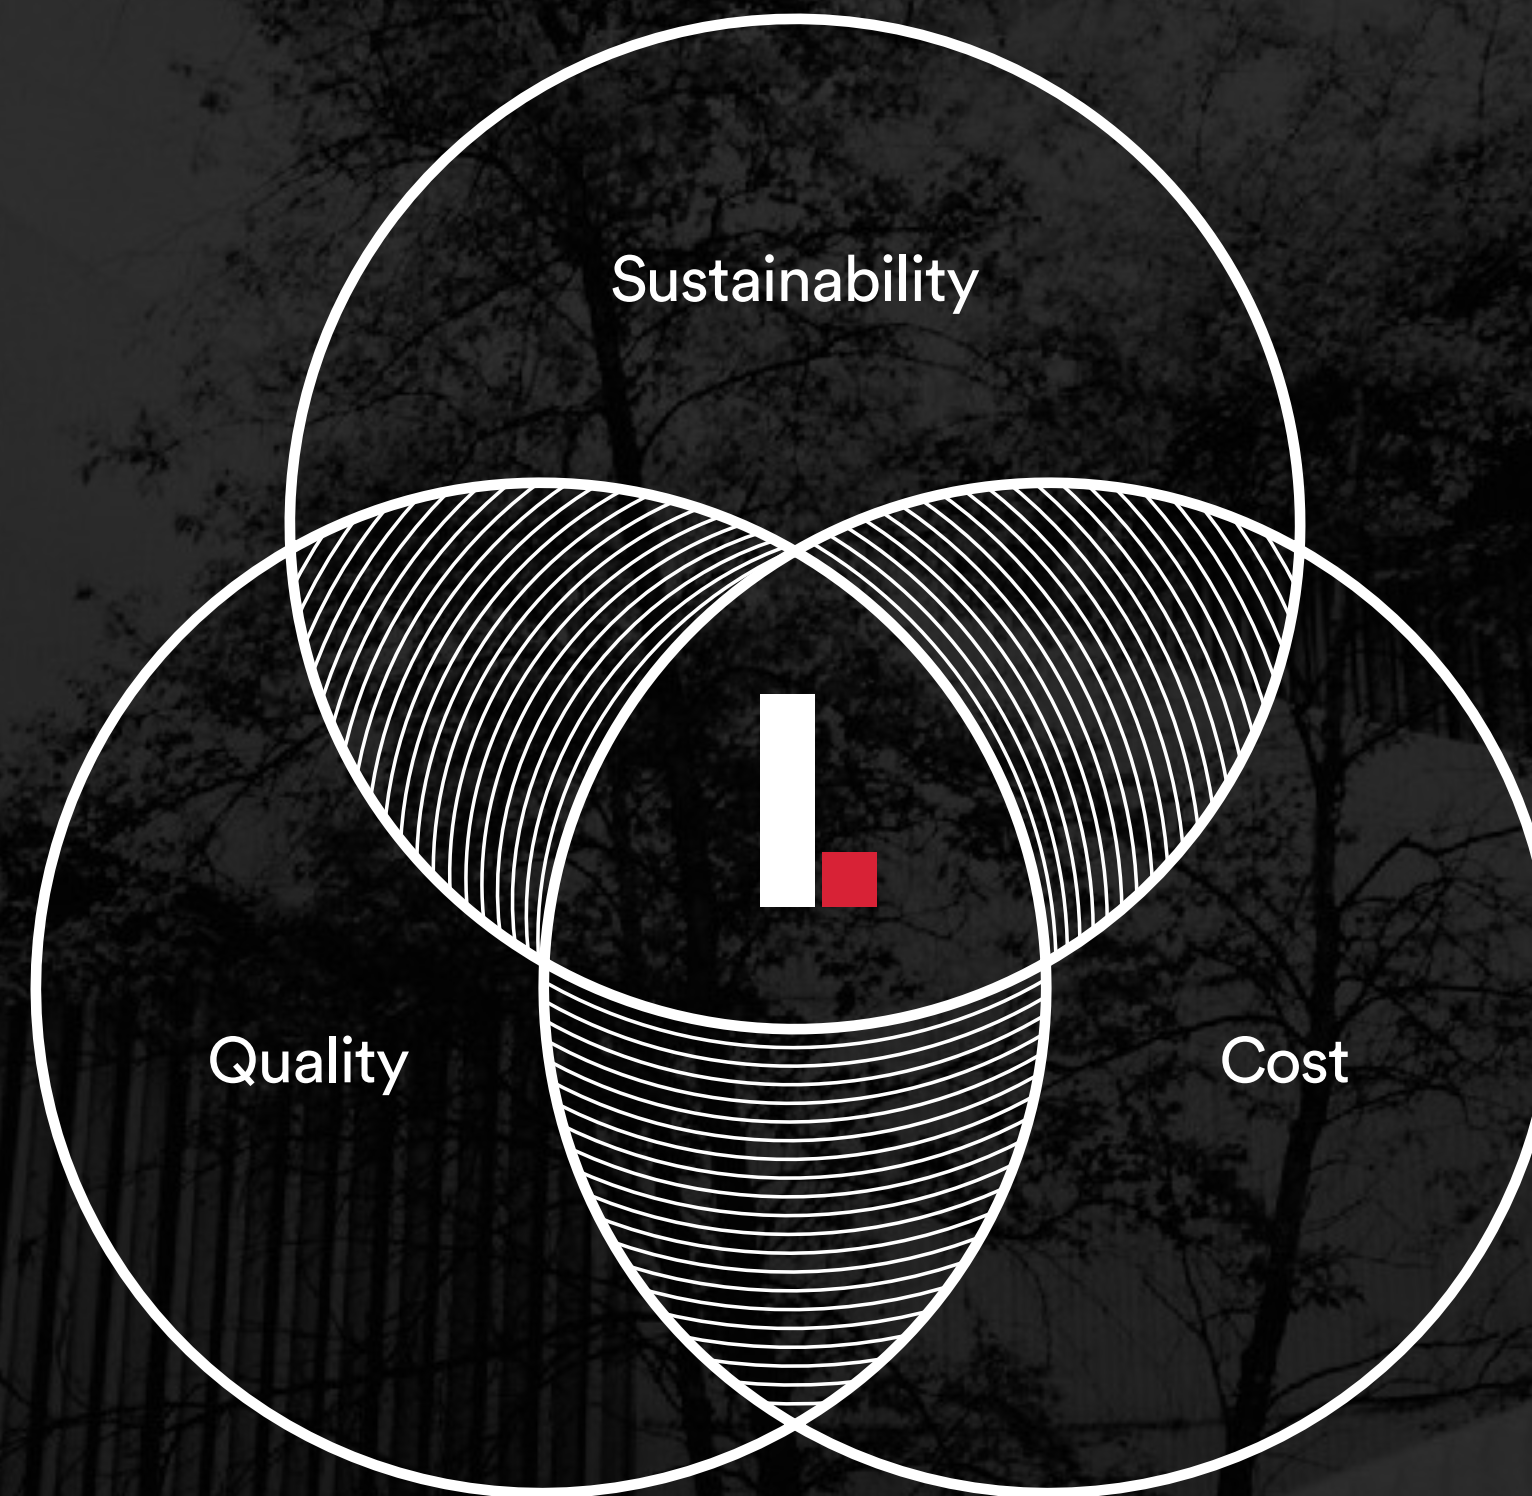

## Our Product

We strive to strike a balance between value for money, quality and durability, and, most importantly, low impact, responsibly sourced materials with low embodied energy and carbon and a low ecological footprint while delivering our product.

# Our Product

# DESIGNCO LAB

Great architecture, expertly resolved and well located has the potential to calm, to inspire and to shape life for the better. Each space, material, and outlook at Designco Lab Studio has been designed with a deep commitment to enhancing quality of life.

At the core of the project is a belief that considered design and construction is vital for a fossil fuel-free future.

Located at the well connected place, a five-minute drive to Moradabad City, Designco Lab Studio has built a strong connection to the natural environment and the local community.

**DESIGNCO LAB STUDIO**

Type : High End Office

## Projects

# Projects

# DESIGNCO

Designco wanted a head office that spoke to its focus as an organisation – Healthy Parks, Healthy People. The location alongside city created opportunities to connect the building to the natural environment.

Use of raw, natural and innovative materials, fresh air, daylight and high resource efficiency were considered vital.

## Projects

# LOHIA CORPORATE OFFICE

Located very close to Sultanpur Metro Station, the Corporate Office is the first Collective work-share in New Delhi designed and enabled by Lohia Worldspace.

The space combines as a workshare, product design, control and flexible meeting space. In designing the space, we have attempted to find a balance between quality, durability and value. Importantly, we have focused on

low impact, responsibly sourced products and materials with low embodied energy.

We hope that Collective Members will find the space inspiring and well-suited to collaborating with great people.
